

*K*harsati Nature Park (KNP) is a natural locale about 40 Kms from Shillong and 5 Kms from the National Highway. It was inaugurated on the 5th June 1998 as Kharsati Sanctuary for the preservation and conservation of the flora and fauna of the area, with the objective to have a better environment. The area, which covers approximately 570 acres of lushful forest land, has undulating hills with perennial streams running through it and abundant wildlife. The objective of the Park is to educate the public where Environment is concerned through Eco-camps and Environmental Awareness Programs, and it also aims to promote a long healthy and fulfilling life style to the people, by providing healthy recreational activities. The Umtrew river, with the potential of water rafting, boating, fishing etc. marks the south boundary of the place

*P*reservation of wild life is the essence of the park, so it provides shelter and safety to many types of birds and animals. Deer, wild boars, civet cats, squirrels, pheasants, fowls, and a variety of smaller animals and birds are still found in abundance in and around the Park.

*I*n collaboration with 3E Society, which stands for Environment, Entertainment and Enhancement, the park has been able to open its doors to Eco – Tourism through many outdoor activities such as Nature Trekking, Camping, Swimming, Boating, Fishing, Terrain Cycling, Nature Study, Eco-Camps, Basic Mountaineering etc.

*A*part from the above activities the Kharsati Nature Park also offers Picnic spots, Gazebos, Cooking Sheds, Camping Sites, Tents, Guides, Security Guards, Guest House etc for the convenience of tourists and nature lovers alike.

Future Activities of the KNP include events and programmes linked to eco-tourism and general entertainment. These include Rest Camps, Lake for Water Sports, River rafting, River Boating and Rock Climbing.

All activities are not year round but are seasonal. Activities are subject to change from time to time
